Tier of Service Definitions

Core: Self-service/informational only

The Act specifically excludes those individuals who participate in self-service activities only (such as browsing the Internet). Services that are designed to inform and educate individuals about the labor market and their employment strengths, weaknesses, and the range of services appropriate to their situations should be considered informational in nature and therefore do not require registration. (DWD Communication #99-53, pp. 4-5)

Any program costs not reflected below will be included here as “Core: Self-service/informational only.”

Core: Staff assisted (registration required)

When there is significant staff involvement in terms of resources or time, individuals receiving the staff-intensive core services are required to be registered for the adult and dislocated worker programs. Staff-assisted services that are designed to impart job seeking and/or occupational skills require registration.

For example, individuals receiving the following categories of core services must be registered.

- Staff assisted job search and placement assistance, including career counseling.
- Staff assisted job referrals (such as testing and background checks).
- Staff assisted job development (working with employer and job seeker).
- Staff assisted workshops and job clubs.

An individual must receive a WIA-funded significant staff assisted core, intensive or training service to trigger registration. (DWD Communication #99-53, pp. 4-5)
